

QUALITY POLICY

Christeyns Food Hygiene Limited, manufacturer and supplier of detergents and disinfectants together with engineering and service support to the food, dairy and beverage industries since 1989, is committed to a comprehensive and developing policy of assuring the quality of the products and services offered to its customers. In accomplishing this aim the policy shall be one of providing the highest quality products and services necessary to meet the specified requirements and expectations of its customers. In carrying out work on a customer's behalf, the Company shall proceed in a reasonable and safe manner, taking into account relevant legislation, standards, codes of practice and professional guidelines.

Both Top Management and all staff are committed to the continual improvement of its operations, as required by BS EN ISO 9001:2015, through the systematic ongoing review of its internal operations and the feedback from its customers and other interested parties. Quality objectives resulting from these reviews shall be established and maintained, via management review, and shall be communicated to all members of staff. Quality objectives shall describe required improvements in those operations to which they relate and the management review shall establish the methods and where appropriate, measurement criteria against which planned improvements can be assessed.

Top Management shall provide the necessary people, infrastructure and working environment to ensure implementation, maintenance and continual improvement of the quality management system.

Top Management shall ensure that this policy statement is implemented and maintained throughout the Company.
